HEMKNOLL

P. O. Box 377
Whippany, New Jersey

Welcome to Hemknoll

"Home of Fine Hems Since 1931"

Another year rolls by and again we think we have another interesting catalog to offer with several new introductions and some tried and tested additions to our general listing. Again I traveled from Florida to New England to seek the better new varieties to add to our display garden, but with so many of you nice people visiting Hemknoll during our season I found it difficult to get away to other gardens during July and August as in other years. It's more fun to be here when you come to visit.

Since perennials have always been great favorites of mine I have again tried to get a changing picture this year by combining companion plants with daylilies. In this way you may find ideas for their use in your own gardens. We have many other perennials and daylilies than we list because of lack of catalog space. Write us about your wants.

In our continual search for new varieties and to be able to have them here for comparison we again added many new daylilies as well as guest plants for further testing. Some of these are Garden Portrait, Summer Orchid, Quincy, Golden Galleon, Charles Nye, Nina Rebman, Playboy, Gold Mine, Lime Frolic, White Triangle, Cashalla, Pre. Marcue, Fashion, Shoshone, Sylvan Nymph, Gold Vellum, Multnomah, Mrs. Spillers, Temple Bells, Green Goddess, Easter Sunrise, Yellow Dragonfly, Greenleaf, Precious Treasure in the light tones. Lyric, Tiffany, Coral Mist, Empire Rose, Sweet Mystery, Bailey Walker, Magic Dawn, Imperial Blush, Bon Bon, and Cherokee Rose in pink tones. Hearts Aglow, Prodigy, Shining Plumage, Brahms, The Kingdom, Pansey Purple in the dark tones. Some of these bloomed last year and most of them will bloom in 1957.

We sincerely wish to thank our many customers for the chance given us to serve them in past years and particularly for the many nice letters about the quality and condition of their plants upon arrival. These fine comments are most gratifying and we expect to continue warranting them in 1957.

CULTURE—Daylilies are among the very hardiest and easily grown of all perennials. They will grow in most any type of soil, however it is best to avoid low wet spots. They do best planted where they will get at least 4 hours of sunlight a day. Thorough watering at blooming time will give larger and better colored flowers. When once established they need no moving for years. Complete planting instructions will accompany each order, as well as growing hints.

SHIPPING—March 15 thru May and August 15 thru November. All plants are husky, freshly dug, labeled true to name, and carefully packed. We take pride in our quality of plants.

TERMS—Cash with order. Orders of \$4.00 or over prepaid. Add 50 cents for packing and postage on orders for less. If you add 50 cents for postage to any order over \$4.00 you may select any \$1.00 plant as an extra.

PREMIUMS—Orders for \$10.00 to \$25.00 select 15%, over \$25.00 select 20%, in **EXTRA PLANTS**. Or we will send you something extra that we hope you will enjoy. *No discounts on collections or items marked net.*

LEGEND: E—Denotes early bloom; M—Midseason bloom; L—Late bloom. Height in inches. Number preceding variety indicates position in 100 Most Popular as selected by members of the American Hemerocallis Society in 1956 Popularity Poll.

WELCOME—For those of you who can, we welcome your visit during July and August—the height of our season. Here you can see over 500 varieties in bloom as well as many of our own seedlings. We are located on Reynolds Avenue in Troy Hills, about halfway between New Jersey Highways 10 and 46. TUCKER 7-2710.

LIME RIPPLE

TWENTIETH CENTURY

LIME RIPPLE (Baker '57) M-ML 38" Visitors have been so excited about this ruffled, fragrant, sun-proof yellow that we are happy to now have a limited number of plants to offer. This one stays open late in the evening and has that greenish yellow coloring so useful and cool looking in the garden. Full, widespread blooms of good size. Net. 15.00

PLUM GOOD (Baker '57) EM-M 36" (Victoria X Canyon Purple) Huge blooms in a rose plum with a cream midrib and more green in its make up than I have ever seen in daylilies. By night the sepals still have very green tips and backs although the throat has lost much of its green. Full slightly recurved petals are 2" wide. One of the few dark ones having fragrance. Good branching, repeats, proliferates, and is semi-evergreen. (*See picture on cover*) Net. Fall Del. 15.00

TWENTIETH CENTURY (Stevens) M 44" (Golden West X Pink Charm) X (Wolof X Theron). Wonderful branched, sun-resistant English Red blooms with a very slight halo of Brazil Red. The 25-30 blooms are 6" in diameter and tough and leathery flowering for a long period. Throat is golden yellow. There is nothing dull about this variety as the mass color could be described as a rich red bronze, a color I have not seen in the daylily before. Dormant. Junior Citation '56. Net. 15.00

WATCH FOR LITTLE UPSTART IN 1958

SIBONEY (Stevens-Baker) M-ML 34" (Fulva rosea X Vulcan) X (Petra) X (Purple & Gold X Royal Ruby) #140-45C. Not spectacular but it has caused so much comment because of its wonderful peach coloring and mass affect that visitors have demanded its release. Throat has a slight rose colored V with greenish yellow throat. This one will excite you from across the garden. Flowers medium sized. Dormant. Net. 5.00

Previous HEMKNOLL INTRODUCTIONS

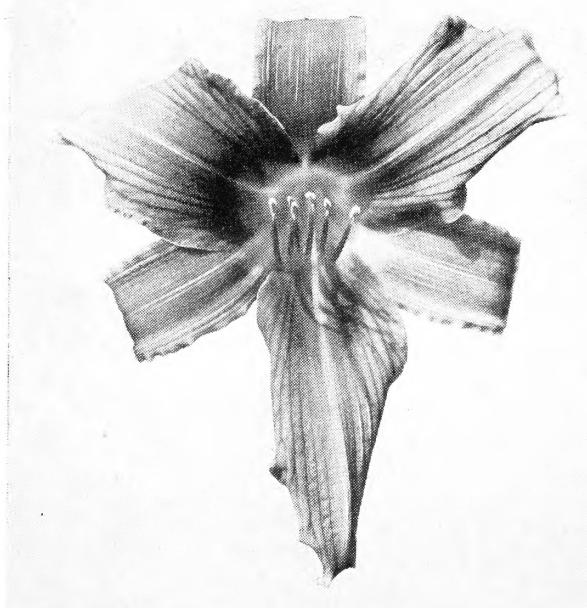

AMBER FLAME (Stevens '56) ML 40" Huge triangular buff apricot self. Net. 7.50

CENTURION (Stevens '56) ML 40" (Lady Balt.) X (Purple & Gold X Royal Ruby) #62-45. A lush, fast growing red between Napal Red and Brazil Red with as many as five blooms out at a time on very well branched scapes. The medium sized blooms are broad and widespread, a warm glowing red. Junior Citation '55. Semi-ev. Net. 15.00

CONFIDENCE (Baker '46) M 34" Very broad vivid salmon peach flowers with greenish throat. Late in the day fades to a smooth pink. Wonderful grower and what seedlings it gives in melons and pink blends. Dor. (*Picture on page 6*) 12.50

KEY LARGO (Baker '55) L 32" Full, widespread 5" light cream good for prolonging season. Dor. 7.50

REVELATION (Baker '55) M 30" (Orange Sdlg. X Samarkand) Huge absolutely sunfast, broad, widespread blooms of rich cinnamon. Remains open late. Semi-ev. 10.00

SPLENDOR

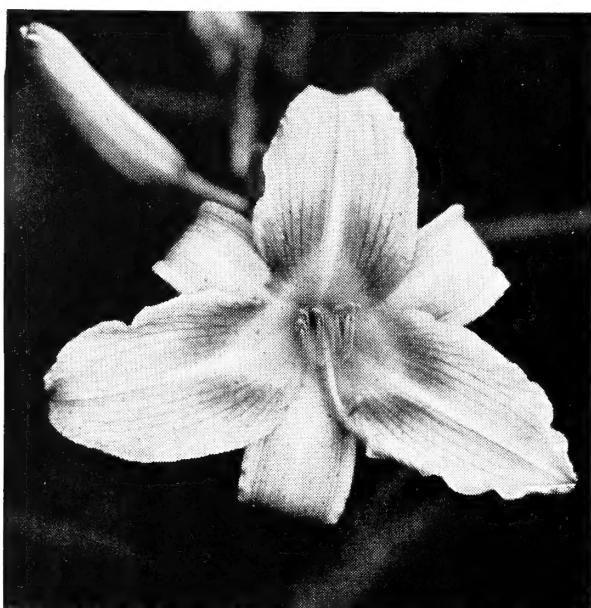

87. **SPLENDOR** (Stevens' 55)
 ML 34" This exciting large, widespread, sunfast crimson with 6" blooms day in and day out is just about the best in the crimson class. The rich coloring deepens as it nears a small green throat. Dor. Junior Citation '54. H.M. '55. Net. 25.00

VILLANELLA (Hill) M 38"	Excellent branching, strong growing deep rose pink with light edges and green throat.	2.50
WAXWING (Nesmith) ML 40"	Very smooth, wax-like, full recurved coral pink flowers of good size. Outstanding for its smooth frosty sheen and satin like quality. Tall and stately.	18.00
WINDSOR TAN (Nesmith)	Large striking bicolor of Windsor Tan and buff yellow. Broad petals make this very showy.	2.00
YELLOWSTONE (Kraus) M 36"	Large, broad, ruffled, fragrant light yellow.	1.50

In order to save valuable space we list some older daylilies that are more plentiful and real inexpensive in two groups. These are old standbys that should make the foundation of any collection and, as they are inexpensive, can be used effectively to landscape by planting in groups of 3 or more to form large clumps in a short time. Many of our all time favorites are among these.

HELLEBORUS NIGER (Christmas Rose) 8"-12". Really a most satisfactory plant if given a little extra care. Select partially shaded, protected spot with good drainage. Work in *liberal amounts* of well rooted leaf mold and a handfull of bone meal and plant or transplant during *September* (*Plants shipped at that time*). During the summer months water (soak) when dry. Keep a mulch of peat moss or leaf mold about the plants at all times. In late fall cover with straw or some light cover and during warm spells in mid-winter the greenish white wax-like blooms will make nice picking as they last 10 to 14 days cut in the house. **1.25 each**
